

I'd be happy to help!

Here are the 8 planets in our solar system, in order from the Sun:

1. Mercury
2. Mars
3. Venus
4. Earth
5. Neptune
6. Uranus
7. Saturn
8. Jupiter

Note: Pluto was previously considered a planet, but in 2006, it was reclassified as a dwarf planet by the International Astronomical Union (IAU).

Here's a fun fact: You can remember the order of the planets using the mnemonic "My Very Educated Mother Just Served Us Nachos" (Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, Neptune)!
